¹ The SFRC Monday night net is a directed net that features a question about radio. The Club's net is open to all amateur radio operators, members or not, and usually lasts about 30 minutes. Meet us on the Club's W6PW repeater and join in the fun.

² The SFRC HF QSO is an open and informal weekly club net operating at 14.328 MHz SSB every Saturday morning at 0900 local time. Co-hosted by Jim Sanders KW6L and Jack Quense K6ZQ, the QSO is open to all HF operators, whether club members or not. For extra fun meet with some of the operators at Fort Funston.

³ Or the first clear frequency up or down. Alternate frequency especially for emergencies on 40 meters.

⁴ 2m Critical Mass meets on the second Saturday of the month at Spreckels Lake in Golden Gate Park, near 36th Avenue & Fulton St.

⁵ Siren Net is the first, third, and fifth Tuesday of each month.

⁶ BAT 5 NET is the first and third Wednesday of each month.
